Schletter Inc. Unveiling New PVSpin™, Solar Module Cleaning System at Intersolar North America

July 5, 2011 Tucson, AZ — [Schletter](#)®, a well-known, reliable partner in solar photovoltaic (PV) racking systems, will be unveiling their new PVSpin (patent pending) at the Intersolar North America exhibit in San Francisco in July. The unique system was developed as a means to effectively clean module surface areas for improved power production.

Unlike conventional methods of cleaning photovoltaic modules, which use brushes and rods, the PVSpin System uses water pressure to rotate two large circular cleaning heads while spraying the modules with a clean, steady flow of water. The operator guides the device up and down the panel surface area reducing the cleaning time as compared to hand-held brushes.

“The PVSpin is unique to the solar industry,” says Martin Hausner, President of Schletter Inc. “Photovoltaic modules drop in efficiency as soil builds up on the module surface. This is especially the case in dry, sunny locations where many PV systems are located. The PVSpin is a direct answer to this issue and will result in greater energy payoffs for owners of solar systems.”

Previously released by Schletter GmbH, Schletter Inc.’s parent company, at Intersolar Europe, Schletter Inc. will release the U.S. product in booth number 7758 at Intersolar North America in San Francisco.

About Schletter Inc.

Schletter (www.schletter.us) has designed, developed and manufactured solar racking projects in the U.S. since 2008 while backed with more than 18 years of solar racking experience from Schletter GmbH. Since opening its United States facility in Tucson, Arizona Schletter Inc has manufactured more than 300 MW of installed PV mounting systems. Schletter Inc offers products for roof mount and ground mount systems for residential, commercial, and utility scale photovoltaic systems. Schletter Inc is an independent subsidiary of Schletter GmbH, which operates subsidiaries in eleven countries with more than 1,200 employees worldwide. For more information on Schletter GmbH, please visit www.schletter.de.
