Ordering from Schletter Canada

Schletter Canada, located next to Detroit, Michigan, is up and running. Ideally situated to provide products and services for the upper Mid-West and upper East-Coast Schletter Canada has manufacturing processes to meet the needs of residential and commercial installers. What this means for our customers are faster delivery times on Schletter products, with a decrease in shipping distance.

For more information on Schletter Canada, please call 519-819-3800 or visit their website at www.schletter.ca.

NEW Schletter Website

We're exciting to announce the release of our NEW website! The new site is loaded with useful information for our customers. Some new features include:

- Product videos
- More brochures for viewing on-line
- More calculation tools in the customer log-in section
- Product categories for residential, commercial, and utility-scale installers
- New easy-to-follow project checklist

Coming soon to the website will be brochure updates and more calculation tools for our customers. Feed back is always welcome! E-mail marketing@schletter.us to share your web experience. We will continue to work on making our site a resource to better serve our customers.

Trade Shows and Events

This year Schletter will be participating at more venues than previous years. Though our training schedule is not set as of yet, we have many shows scheduled in North and South America.

Below is an overview, but be sure to see our [on-line edition](#) for updates. Within the next few months, visit Schletter US and Canada at:

Event	Dates	Location	Country
EUPEC (Booth #839)	Jan 31 - Feb 2	Phoenix, AZ	US
MiaGreen (Booth #909)	March 3 - 4	Miami, FL	US
Renewable Energy World (Booth #421)	March 8 - 10	Tampa, FL	US
PV America (Booth #303)	April 3 - 5	Philadelphia, PA	US
Ontario Feed-in Supply Chain , Renewable Energy	April 19 - 20	Toronto, Ontario	Canada

PV Rollout in Boston, MA

In addition to exhibiting at trade shows, Schletter will also be participating in events such as the European American Solar Development Conference, hosted by OTTI. From February 10th to the 11th, leaders in the solar energy industry will present at attendees. With direct interaction between attendees and speakers, this two-day event provides a unique opportunity. The goal is to examine the technical, economic, and political hurdles by discussing, analyzing, learning, and networking—leading to solutions to existing problems and insight into future technologies.

Dr. Wolfgang Fritz, vice president of engineering, with Schletter Inc. will be participating in the PV Rollout as a speaker, discussing ‘Existing building codes and optimization potential of PV mounting systems.’

Early bird registration is extended to January 24th! Be sure to register today to take advantage of this event!

ESA Renewables, LLC Ribbon Cutting

Located in Blairsville, Georgia there will be a ribbon cutting ceremony held by ESA Renewables and Reviewable Properties highlighting the 1 MW system location on the corner of Old Blue Ridge Highway and Ed King Road. This solar power plant is the largest in Georgia to date and uses Schletter Solar Mounting Systems!

Sven Kuenzel, vice president of sales and marketing, of Schletter will be available at the ceremony to answer any questions.

E-mail Lindsay Herold at lherold@esarenewables.com or call 407.536.5346 to RSVP.

Schletter Product Focus

In addition to Schletter's quarterly newsletters, we have started a new communication called the Product Focus newsletter. Issued monthly, the Product Focus briefly highlights a different Schletter product. To see January's Product Focus, [click here](#). If you are not currently receiving the new Product Focus Newsletter (started in December of 2010) and would like to, [please click here](#).
