Fast and Easy to Install, Schletter's Fix-EZ Receives a Boost in Standards Ratings

Schletter announces the approval of Intertek's UL Subject 2703 for one of the company's flat roof PV mounting systems, offering more integrated grounding and bonding in one system

March 13, 2014 — Shelby, North Carolina — Today Schletter© announces receiving ETL Listing of its Fix-EZ solar mounting system to UL Subject 2703. Known for manufacturing some of the highest quality and reliable mounting systems in the market, the Fix-EZ is one of Schletter's several solutions for flat roof applications.

The Fix-EZ allows for module tilt ranges from 5 to 15 degrees, depending on the length and orientation of the system. In addition to the system meeting the criteria needed for UL Subject 2703, Schletter's engineers design using 100% IBC code compliance in either ASCE 7-05 or ASCE 7-10.

Designed with multifunctional components, the Fix-EZ includes integrated ballast blocks, which act as ballast weight in addition to serving as the system's support mechanism. Module mounting rails support modules and perform as the system's windbreak with Schletter's ETL Listed Rapid²⁺ modules clamps for bonding/grounding the modules to the rails.

The ETL Listed Fix-EZ is now available for flat roof projects in every state. For more information, including a no-obligation quote, contact the company or visit www.schletter.us.

About Schletter

Schletter (www.schletter.us) has designed, developed, and manufactured solar mounting products in the U.S. since 2008, while backed with more than 20-years of solar mounting experience from Schletter GmbH. Since opening its United States facility in Tucson, Arizona Schletter Inc. has manufactured more than 1 GW of installed PV mounting systems. Schletter Inc. offers products for roof mount and ground mount systems for residential, commercial, and utility scale photovoltaic systems. Schletter Inc. is an independent subsidiary of Schletter GmbH, which operates subsidiaries in eleven countries with more than 1,500 employees worldwide. For more information on Schletter GmbH, please visit www.schletter.de.
